

PRO-TWIN

A medium-security twin wire fencing system offering enhanced visibility and vandal-resistance.

This Twin Wire Fencing System is a medium-security solution available in 656 or 868 mesh options. The 656 variant comprises twin 6mm horizontal wires and 5mm vertical wires, while the 868 option features twin 8mm horizontal wires and 6mm vertical wires.

Designed for durability and resistance against vandalism, it's suitable for schools, sports facilities, and industrial sites. Galvanized and polyester powder-coated in various RAL colours, it provides customisable security in different heights. Equipped with vandal-resistant fasteners, Pro-Twin ensures reliable perimeter protection against cutting attempts.

Specification

Height	0.6 to 6 meters
